EXPERIENCE

CREATIVE COMMUNICATION COORDINATOR

The motive culture and communication co., Ltd.
Beijing, China | 2020 – 2022

- Coordinated integrated automotive communication campaigns across livestream productions, experiential brand events, and luxury communication initiatives.
- Worked across creative development, communication coordination, production supervision, and narrative-based campaign execution.

PROJECTS

AudiChannel
Livestream Campaigns

Focused on narrative-driven livestream communication, visual coordination, campaign rollout support, and audience-oriented storytelling systems.

Audi A8L Horch
World Premiere

Supported luxury launch communication through visual proposal development, cinematic narrative coordination, and international production communication.

Audi A8L x
Ryuichi Sakamoto

Contributed to experiential communication and artistic collaboration narratives combining cultural storytelling with automotive brand identity.

KEY CONTRIBUTIONS

- Coordinated creative production workflows between clients, creative teams, suppliers, photographers, and execution teams
- Developed communication proposals, visual references, and narrative structures for automotive campaigns and livestream productions
- Participated in scriptwriting and narrative sequencing for audience-oriented campaign communication
- Managed production timelines, creative assets, and on-site execution for large-scale automotive events and exhibitions
- Supported communication consistency across integrated campaign touchpoints and experiential brand activations
- Collaborated on campaigns involving AudiChannel livestream projects, Audi A8L Horch Global Premiere, Audi RS collaborations, and Audi x Ryuichi Sakamoto

COMPETENCIES

INDEPENDENT
CREATIVE
PRACTICE

Milan, Italy | 2023–Present

Research-driven creative practice exploring speculative communication systems, narrative-based visual design, exhibition storytelling, and interdisciplinary media narratives.

Selected projects include speculative communication systems, exhibition narratives, editorial storytelling, and conceptual visual communication.

PROJECTS

TYRANNO

Speculative Communication System
2025–2026

Developed a speculative communication system exploring human–Tyrannosaurus Rex interaction within a future urban environment, combining semiotics, experimental typography, narrative world-building, and interaction design.

OUTPUTS

- Symbolic Communication Structures
- Typography & Interaction Systems
- Digital Storytelling Prototypes

KEYWORDS

Speculative Design / Semiotics / Narrative Systems
/ World-building / Experimental Typography
/ Future Communication

THE INFINITE DISCUSSION

Machine Vision Exhibition Narrative
2025

Speculative exhibition project exploring machine–human communication through AI-generated dialogue systems, audiovisual storytelling, and immersive narrative environments. The project examined how AI reshapes communication behaviors and mediated interaction in future digital cultures.

DEEAR MAGAZINE

Editorial Narrative & Publication Systems
2024–2025

Editorial publication project exploring identity, migration, emotional memory, and queer narratives through contemporary publication design. Focused on typography, visual sequencing, narrative pacing, and emotionally driven storytelling.

MADAM, IN EDEN, I'M ADAM

Conceptual Photography & Visual Storytelling
2024

Conceptual photography project exploring symbolic identity, body language, and emotional storytelling through cinematic visual narratives. Developed the visual storyboard, directed staged photography, and completed post-production and color grading.

OUTPUTS

- Audiovisual Installation Content
- Speculative Dialogue Systems
- Immersive Communication Environments

OUTPUTS

- Editorial Layouts & Magazine Spreads
- Publication Systems
- Typography Systems

OUTPUTS

- Conceptual Photography Series
- Cinematic Image Sequencing
- Symbolic Visual Narratives
